Lifetime Achievement Awards

- 1. Lt. Gen. Prof. Phisal Thepsitar (Thailand)**
Past President – The Dental Association of Thailand.
He is on APDF/APRO’s prestigious List of Honour.
(Presented in Macau APDC 2017)

- 2. Dr. Patrick Hescot (France)**
President of the World Dental Federation (FDI) 2015/2017
(Presented in Macau APDC 2017)

Commission on Dental Education

Chairman Dr Mark Villalobos- Philippines

Terms of Reference

- To propose to invite all dental universities and/or colleges within the framework of the Asia Pacific Dental Federation to become members and engage actively in the continuing dental education programs of the APDF to ensure competency among general dental practitioners.
- To propose plan of action and activities
- To organize a dedicated workshop.

Except for the years mentioned, we will still support the Preamble as manifested in the Commission on Dental Education which is:

“The Dental Education Commission, for the Year 2018-2020, looks forward to develop a broad consensus to formulate and synchronize the existing curriculum on various member countries to make highly competent General Dental Practitioners. This will be done by analysing the existing Continuing Dental Education through a cross sectional survey across few member nations of the APDF. The result of the survey will be deliberated in a workshop. Such deliberation will help APDF to decide the minimum requirements for ensuring competency among General Dental Practitioners”.

Commission on Oral Diseases

Chairman Dr Mahmood Shah – Pakistan

Topic

Assessment of Dental Caries in Mixed Dentition Children in Asia-Pacific Countries, and their Preventive/ Curative Recommendations.

Preamble

Dental Caries is a highly prevalent Chronic Oral Disease and its consequences cause a lot of pain and suffering. World Health Organization reports 60-90% of schoolchildren worldwide experience Dental Caries, with the disease being most prevalent in Asian and Latin American countries.

In Mixed Dentition age, Dental Caries remains among the most widespread chronic oral disease known to afflict children, resulting in a compromised quality of life.

Dental Caries has a wide spectrum of risk factors ranging from a child's gender, increasing age, lack of fluoride exposure, oral health behaviors, unhealthy dietary lifestyle such as use of sugar-sweetened beverages, low socio-economic status (SES), and maternal oral health. If left unattended, these may cause pain, loss of function, poor appearance, low self-esteem, malocclusions, absence from school, and difficulty in concentrating on daily activities. Dental decay when left untreated can adversely affect children's growth and overall well-being.

Terms of Reference

1. To describe the Status of Dental Caries among children of Mixed Dentition Period.
2. To evaluate the factors associated with Mixed Dentition Caries such as child's gender, lack of fluoride, oral habits, social economic status and maternal oral health.
3. To evaluate the DMFT score of children in Mixed Dentition Group in APDF countries.
4. To increase Awareness of Oral Hygiene.
5. To recommend Preventive and Curative Treatment Options.

Commission on Dental Public Health

Chairman Dr. Lin-Yang Chi – Chinese Taipei

Topic

Oral Health Inequalities

Preamble

Oral health inequalities refer to differences in oral health status, which are avoidable, unfair and unjust. Associated factors include age, gender, race, ethnicity, income, neighbourhood characteristics, and access to oral health service, etc. In Healthy People 2020, the goal on health disparity was to achieve health equity, eliminate disparities, and improve the health of all groups. In Asia-Pacific area, it is also essential to find solutions to resolve disparities, establish justice in oral health, and moving towards health for all with equal opportunity to access the health system for all populations.

Terms of Reference

1. To describe the current status of oral health inequalities between and within members of APDF.
2. To define oral health inequalities in terms of oral health service access, availability, and utilization status.
3. To evaluate factors associated with oral health inequalities, such as age, gender, race/ ethnicity, low household income/SES, rural residents, and people with special-need.
4. To advocate and increase awareness of oral health inequalities among members of APDF.
5. To develop oral health programs or interventions to improve oral health inequalities in Asia-Pacific area.

Commission on Defence Forces Dentistry

Chairman Air Vice Marshal (Retired) Dr A M B Amunugama – Sri Lanka

Terms of Reference

To identify the method to increase participation of military dental officers at the APDC s and in APDF activities.

To identify method to increase professionalism and the image of the Military Dental Officer.

The Policy Statement

PROJECT 1

To prepare a Manual of guide lines for Military Seminar to help the LOC

Rationale

Almost all the member nations have Dental Officers serving in their defence forces who could immensely benefit by attending the APDC. Unfortunately, international participation of Military DO s has remained very low. It is felt a Manual of Guide lines in organizing a Military Dentistry session will greatly help increase the attendance of Military DO s at the APDCs.

Since almost all the participants would be serving officers, they will need to obtain prior approval to leave their respective countries. Also, many dental officers will need funding from their respective services. Such fund are allocated towards the end of previous year or very early in the ensuing year. It is very helpful if the details of the meeting are sent to respective authorities before they make the budgetary plans.

Some countries have separate dental services for Army, Navy and Air Force, some have unified or common dental service and some semi military/civil systems. It is very important for LOCs to invite from all three arms of the defence forces. Also, it is necessary to follow the service protocols of the respective countries which could be done with the help of Military attaches or Diplomatic staff.

All the steps will be spelt out with appropriate time schedules

Project 2

Increase the capacity of military DO s to attend to general medical and surgical needs that may encounter as emergencies or in field situations outside the dental office.

Rationale

There are many combat situations, natural disasters, accidents where Military DO could be the only available health care professional. Ability to carry out CPR, provide haemostasis, fracture reduction/ stabilization, monitor vital signs, to install iv cannulas for rehydration or medications would be expected of him as an uniform wearing person.

Ability to perform with confidence and competence would enhance the reputation and regard for the profession among the military colleague and the community at large.

Specific situations needed areas of competency and the manner of required training could be discussed and identified at seminars and workshops and the Commission meetings that are held during the APDC. The sessions could culminate by producing a Policy Statement that would be accepted and followed by the military organizations on the region

Commission on General Dental Practice

Chairman Dr Sudin Shakya – Nepal

The commission will focus in these two areas

Topic

Policy Statement on Prevention of Medical Emergency in Dental Practice

Outline

Medical Emergency can happen to anyone at any time. In a dental practice, it can happen on any day, any time and any place. It can happen to our patients, staffs, dentists or even person who is simply waiting (escort of patient). Prevention of such emergency and preparedness to deal with medical emergencies are moral and legal duty of every dental practitioner. Therefore, all the dental team must be equipped with the knowledge, skill and resources to deal with such problems.

Term of references

1. To create awareness among dental practitioners in the prevention of medical emergency
2. To gather medical emergency prevention procedure from member countries and some developed countries
3. To develop a set of guidelines on prevention of medical emergency
4. To prepare medical emergency kit with the lists of emergency drugs and their uses

Future Asia Pacific Dental Congresses

APDC	Year	Venue
41 st Asia Pacific Dental Congress	2019	Seoul, Korea
42 nd Asia Pacific Dental Congress	2020	Colombo, Sri Lanka
43 rd Asia Pacific Dental Congress	2021	Chinese Taipei
44 th Asia Pacific Dental Congress	2022	Malaysia/Philippines
